On-line booking

In December 2015, our experimental on-line booking platform was opened for families from a number of schools, to book school meals, and leisure centre activities on Wednesdays, and during term and summer holidays.

The experiment was a success and in 2016, we opened the platform up to all families for term holiday and summer holiday leisure centre activities. This has now been extended to Wednesday leisure centre bookings. The online system helps the city know exactly how many children take part in the activities and how many staff are needed.

You now need to book on-line for all Wednesday, term holiday and summer holiday leisure centre activities on the <https://espace-citoyens.net/rennes> website family section.

This booklet explains what to do, step by step.

*Lénaïc Briéro,
City councillor in charge of
Education*

*Nadège Noisette,
City councillor in charge of
procurement*

Here's how you should proceed to enrol your child for a Wednesday afternoon or school holiday leisure centre:

– 1 –

Fill in the personal identification form* and contact the phone numbers below if your child has any particular needs (special diet, allergies, special needs assistant, etc.)

– 2 –

Create your personal account on the family section of the website

<https://espace-citoyens.net/rennes>

– 3 –

Book the days when you want your child to attend, at least eight days before the session, on <https://espace-citoyens.net/rennes>. You can also cancel bookings with at least 8 days notice.

For instance:

for a leisure activity session on Wednesday October 18th 2017, you need to book (or cancel) on-line by Tuesday October 10th at the latest.

You can also make forward bookings for the whole year, per month, per week or per day.

**Without a forward booking,
your child may not get a place.**

* The form is available on the family section of the website or in the activities guide for 2017/2018.

From September 2017 onwards, you will be able to download an electronic version of the form from the family section of the website. The experiment will be extended to everyone in September 2018.
